Dear new supervisor in MoMeD

Welcome to the Danish research Programme of Molecular Mechanisms of Disease. The programme is run by our supervisors and we therefore expect you to commit to this before you can enrol your students in MoMeD. The daily management of the programme is done by Professor Anders Lund in cooperation with the coordinator Anne Vognsen. The Programme is funded by a 5 year grant from The Danish Agency for Science, Technology and Innovation in autumn 2006. From January 2011 MoMeD is a Graduate Programme at the PhD School at the Faculty of Health Sciences.

What MoMeD expects of new Supervisors

The Supervisor must:

1. Supervise within the research areas of MoMeD
2. Co-advise MoMeD students
3. Take part in the biannual evaluation with the student and co-supervisor
4. Be involved in teaching and/or organisation of PhD courses
5. Participate in the Summer School usually 2 days in June
6. Enrol students in MoMeD
7. Help find a suitable co-advisor for the students
8. Serve in MoMeD committees

The Board of MoMeD consists of all supervisors. The Board meets once a year (usually in connection with the Summer School).

The Co-supervisor/MoMeD supervisor must:

1. Not be directly involved in the project – this gives an outside view on the project
2. Assist the supervision of the project
3. Take part in the biannual evaluation and meeting with the student and supervisor
