Dear new supervisor in MoMeD

Welcome to the Graduate Programme of Molecular Mechanisms of Disease at the PhD school, faculty of health and medical sciences. The programme is run by our supervisors and we therefore expect you to commit to this before you can enrol your students in MoMeD. The daily management of the programme is done by Professor Kim Bak Jensen in cooperation with the coordinators Jette Gjerke Hemmingsen and Anne Schultz Vognsen.

What MoMeD expects of new Supervisors

The Supervisor must:
1. Supervise within the research areas of MoMeD
2. Co-advice MoMeD students
3. Take part in the biannual evaluation with the student and co-supervisor
4. Be involved in teaching and/or organisation of PhD courses
5. Participate in the Summer School usually 2 days in June
6. Enrol students in MoMeD
7. Help find a suitable co-advisor for the students
8. Serve in MoMeD committees

The Co-supervisor/MoMeD supervisor must:

1. Not be directly involved in the project – this gives an outside view on the project
2. Assist the supervision of the project
3. Take part in the biannual evaluation and meeting with the student and supervisor

If you have any questions you are welcome to contact us:

Kim Bak Jensen: kim.jensen@bric.ku.dk
Anne Schultz Vogensen and Jette Gjerke Hemmingsen: Momed@bric.ku.dk
